Criteria:	A/C;1/3;1/3
Status code:	5S3
Reason:	Significant grouping of mature eucalyptus trees in Northridge; one of few extant landscape features associated with the area's early history. Originally part of a windbreak that spanned the perimeter of an early farm, the trees were preserved and incorporated into the present-day subdivision when it was developed in the 1960s and '70s. The trees appear to meet local criteria only and may not meet significance thresholds for National Register or California Register eligibility.

Address: West side of White Oak Ave, between Lassen St and Superior St

Criteria:	A/C;1/3;1/3
Status code:	5S3
Reason:	Significant grouping of mature California pepper trees in Northridge; one of few extant landscape features associated with the area’s early history. Historic aerial images and visual inspection suggest that the trees substantially pre-date surrounding development. The trees appear to meet local criteria only and may not meet significance thresholds for National Register or California Register eligibility.
