

# Sample Window Presentation

Project: Replace Kitchen and Breakfast Room Windows that face the driveway.

1. Restore Kitchen Window
2. Reduce size of Breakfast Room Window

All details of new windows to match existing windows. All materials, muntins, sills, moldings, etc. to match existing windows that were previously approved by the HPOZ Board. New windows will be made by Westside Door and Windows who made existing windows.

1. Restore Kitchen Window

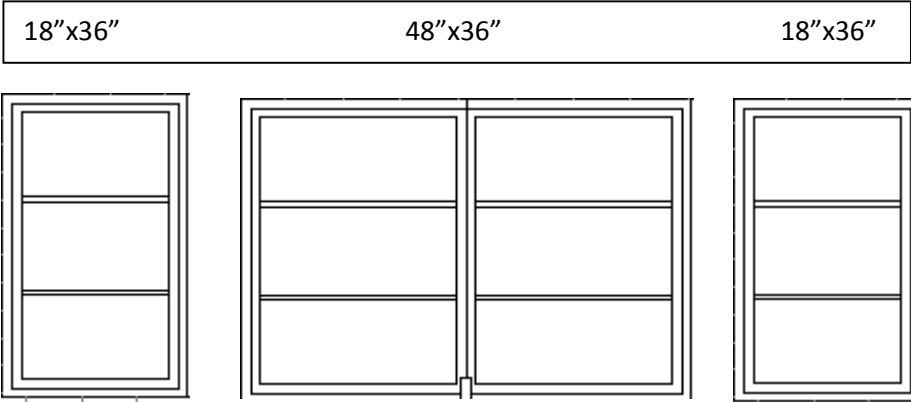

2. Reduce size of Breakfast Room

Existing Kitchen and Breakfast Room Windows facing driveway

Existing Kitchen Window. Fixed Single Pane Side Windows. Center Aluminum Sliding Window.

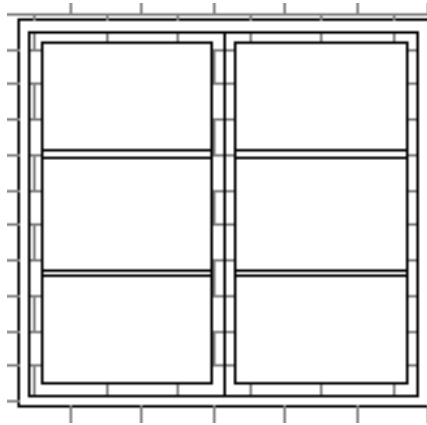

Restore Kitchen Windows to Original Design and Detail using Existing Openings. Side Windows, Wood Casement, True Divided Lights, Single Pane, In-swinging. Center Window, Wood Casement, True Divided Lights, Single Pane, Fixed.

Existing Breakfast Room Window is 72" x 48". The bottom is 48" from the driveway.

36"x36"

Reduce Breakfast Room Window size to 36" x 36" single pane, wood casement, true divided lights in-swinging. Bottom of window to be raised by 18" or 66" from driveway. Window will be centered on existing opening.
